Yesterday, at the Bridge street railroad cross ing, a new hoisting gate was placed, for the protection of those who pass by with horses. The arrangement is simple; the protecting board being of pine, about forty-five feet in length, which is lowered across the street by simple machinery moved by a crank. When the gate is not across the street it is raised to a perpendicular position into the air. A similar gate will be placed at the foot of Rines' Hill. Our city government has often requested of the railroad company the erection of these gates.

The indignant greenbackers of Athens are thoroughly disgusted with the nomination of Mr. Philbrick as their candidate for representative to Congress from this district. In the Somerset convention he clearly and flatly opposed the principle of inflation of the currency, and showed the ne cessity of the bond in business. Athenians say they have no hope of having a new order of things Ly sending such a man as Mr. Philbrick to Congress, and they are bound to ignore him and arow him overboard. So that either a convention of bolters will be called, and a new man put in nomination-which seems very probable-or when the voting time comes these men will cu Mr. Philbrick's name from their tickets.

The officers of the Maine State Agricultural So ciety and Maine Dairyman's Association, have issued their annual Premium List which will be mailed free to all applicants, and are making extensive preparations for one of the most interesting joint exhibitions ever holden in the State. The Fair will open at Presumpscot Park and City Hall, Portland, on fuesday, Sept. 17, 1878, at 9 o'clock, and continue four days. Premiums are offered aggregating over \$5000. The railroads will make their usual reduction of fares. The road will run special passenger trains at reduced rates, thereby offering to the general public an opportunity of visiting the Fair at a trifling expense.

A very pleasant time was enjoyed at the house of the venerable and much respected Judge Palmer in Gardiner, the other evening, it being the occasion of the visit of his brother, Prof. G. S. Palmer of Washington, D. C. The house and grounds were finely illuminated, and a large number of friends called to pay their respects. Refreshments were served in good style, and with true, old fashioned hospitality. The gentleman in whose honor these festivities were held is Professor in the Howard University and has charge of the Freedmen's hospital in Washington. It will be remembered that an attempt was made at one time to break him down, but his persecutors were "driven into their holes, anxious to haul the holes in after

Solon Chase, apostle of Greenbackism, addressed an open-air meeting in this city, last evening. Some three hundred persons were present, the most of them drawn by curiosity to see the gentleman. He was introduced by Dr. Crooker, who said that he prided himself on being a greenbacker to the very bottom! Mr. Chase drew a woeful picture of the times, the depression of business, etc., and said his "idee" was that the whole cause was the shrinkage of values—the rise in the purchasing power of government bonds, and the shrinkage in manufactured articles, of farms, of cattle, and of all the products of industry, and the panacea for all our wees was the further issue of panacea for all our wees was the further issue of the creek amount he could not say. greenbacks, the exact amount he could not say, but enough to meet the legitizate demands of business. The greenback meeting at Gardiner, on Thursday evening, will do the cause no good. True, Miss Mabel Woods; the Hallowell Glee Club, and Johnson Hall was filled, but the people carcless.y loafing and drifting about the streets, after their day's work was done, wandered into the hall, as they would to any free show or negro concert. Instead of any one being convinced by Solon's "argerments," as he called them, that they ought to go in for inflation, the reverse is the fact. One of the leading business men of the city, and about the only gentleman of standing and position in Gardiner who has been in the greenback movement there, declared very plainly at the close of the meeting, that he had "got

Their principles have become popular, and their strength will extend but as a general thing they will not battle us. He farther remarked, "Their movement is also assuming a communistic phase wherever it is strongest. Inat is the surest way of killing it. The sending of Kearney east as their "apostle" will also hurt them. In the ravings of this fanatic the people will see the dangerous proclivities of the party. In Kentucky their leaver is Blanton Duncan, who never did a stroke of work in his lite. Their final destiny will be after creating a disturbance to disappear." The interview was concluded with the assertion of Blackburn that there has been no instance in the politics of this country where a party had gained control of both houses of congress that it did not elect the next p esident.

To CONSTMERS OF GAS.

The August Sa Light Company are under the necessity of repairing their gas holder, which will interrupt the usual flow of gas for some days. An apparatus has been provided by which it is hoped a partial supply, as it is manufactured, may be delivered, but it may not be relied upon to deliver even the quantity which can be made during the hours of consumption. Consumers are requested to provide against this unusual interruption. Men with apparatus are notified to be here Monday. August 5th, to commence the repairs, which will be completed without delay.
